Registered in England, Reg. No. 886857

www.hi-litesigns.com

How to Pay**By cheque:**

*Make cheques payable to
 Hi-Lite Signs Limited*

By credit card:

We accept all major credit cards.

*Please supply the following
 with your order:*

Card number
 Expiry date
 Security code
 Card holders name & billing
 address

Order Value

A minimum order value of £15
 applies to all credit accounts.
 This will be waived if payment
 is received with your order.
 All prices are exclusive of VAT

All other sales are payable not
 later than the last day of the
 month following the month of
 invoice.

Delivery

We normally despatch stock
 orders received within 48 hours.
 In some cases they will be
 despatched the same day.
 Special signs are usually
 despatched within 7/10 days,
 depending on the
 complexity of the order.

Charges for carriage will be
 confirmed at the time of
 quotation, and depend on the
 sizes and quantities required,
 as well as the delivery
 destination.

For large offshore and
 international deliveries, we offer
 a crating service, for shipping
 by ourselves, or for collection
 via a freight forwarder.

All Rights Reserved

Our policy is one of continuous improvement and
 we reserve the right to alter or amend prices,
 designs and specifications described within this
 catalogue without prior notice.

Materials

FL "Fibrelite" GRP

Ultra durable material resistant to Vandalism, acids and alkalis. Hygienic and easily maintained. Ideal for external use and in corrosive and hostile environments.

RP Rigid Plastic - 1mm

Non-toxic, self-extinguishing plastic. Suitable for all locations not exposed to extreme conditions.

SA Self-adhesive vinyl

An inexpensive material, easy to apply. Mainly for internal use.

HR "Hi-Glow rigid and self-adhesive **HS** Photoluminescent material

Photoluminescent materials which once charged by normal light source, will emit light to assist evacuation in darkness or where there is a power loss. They retain their luminescence for several hours and can be re-charged any number of times. Ideal for the identification of escape routes, lifesaving and fire fighting equipment.

AL Reflective Aluminium

Reflective material bonded to 11 gauge aluminium. Supplied either pre drilled for wall fixing or with channelling to rear for post mounting.

Class 1
(High Intensity)

Provides higher levels of brightness and retains a high reflective level over 10 years.

Class 2
(Engineering Grade)

A more economical material with reduced reflective properties.

Engraving Materials

A variety of options are offered, including : -

- ★ Plastic Laminates
- ★ Acrylics
- ★ Brass
- ★ Bronze
- ★ Copper
- ★ Anodised Aluminium
- ★ Stainless Steel
- ★ Hard Wood

Know your Signs

Warning Safety Signs mean *Caution - Risk of Danger - Hazard Ahead.*

Mandatory

Mandatory Safety Signs mean *You must do - Carry out the action on the sign.*

Prohibition

Prohibition Safety Signs mean *Do not - you must not - Stop.*

Safe Condition (Fire Safety Signs)

Safe Condition Signs mean *The Safe Way - Where to go in an emergency.*

Fire Equipment (Fire Safety Signs)

Fire Equipment Signs indicate the *location of Fire Equipment.*

Understanding Product Coding

All signs in this catalogue are assigned a three part code. The initial letters inform you of the material (or type), the four figure number is the actual sign reference and the final letters indicate the size.

Example

Prefix = Materials (Rigid plastic) **RP** **2332** **TG** Suffix = Size (600 x 200)

Sign code

Viewing Distances

Sign viewing distances

Viewing distance up to 5m	Viewing distance up to 10m	Viewing distance up to 15m	Viewing distance up to 20m
			
Size: 100 x 100mm	Up to Size: 300 x 100mm	Up to Size: 600 x 200mm	Up to Size: 600 x 450mm
Size Code BB	Size Code JB	Size Code LF TE TG	Size Code VJ

This viewing guide will assist you in choosing the correct size of emergency escape sign.

Please contact our sales office if you require any technical assistance.

Post Mounted Signs

Supplied either for wall fixing or with brackets for post mounting
Prices include details of your owner/operator (please specify when ordering)
To comply with the Data Protection Act 1998, where surveillance equipment is installed, signs should be positioned that are legible and clearly visible to the public.

These signs should contain the following information :-

- The purpose of the surveillance
- The organisation or person responsible for the surveillance
- Who to contact regarding the scheme

The Health & Safety
(Signs & Signals)
Regulations

It is a legal requirement under The Health & Safety (Safety Sign & Signals) Regulation to mark visible pipework containing or transporting dangerous substances and preparations with a pictogram or symbol

We produce a wide range of self adhesive tapes which comply with the recommendations of BS1710:1984 and where appropriate with the Health & Safety (Signs & Signals) Regulations 1996.

Material

The tapes are self-adhesive two-ply, a printed vinyl substrate with a protective polypropylene laminate.

Method of Application

The tapes should be applied only to surfaces free from oil and dirt. the length of the tape should be trimmed to suit the pipe, allowing a minimum of 25mm overlap.

Temperature range
- 40°C to + 150°

If you have a requirement for special tapes either for pipeline marking, packaging or promotional purposes, please contact our sales department

Tel: 01507 600500

Fax: 01507 600309

Plastic chain and posts

Manufactured from high quality polypropylene, our range of plastic chains come in a variety of sizes and colours to suit every type of safety application. In order to secure the chain together, to a post or fixing, you will also need a connector link. These are available in the same sizes and colours as the chain.

Tamper evident tie and tag seals

Baglock

This pull tight seal is suitable for many differing applications against pilferage and unauthorised opening of cash and mail bag, security boxes, vending machines, fire extinguishers etc. It is available in two sizes and has an easy application locking mechanism.

Code Length

BL 0280 280mm
BL 0320 320mm

Supplied in packs of 1000

Packlocks

Available in 3 differing lengths this seal has a unique jaw specially designed for easy insertion by hand and is fully tamper proof. To remove the seal simply break the easy tear off groove.

Code Length

SL 0250 250mm
SL 0300 300mm

Multilock

This pull tight seal is available in 2 different lengths. Its unique, tamper-proof metal locking mechanism ensures positive and reliable locking and application. This is simple, with uni-directional insertion by hand and no tools are required to break the seal as it has an easy tear-off groove.

Code Length

ML 0200 200mm
ML 0250 250mm

Octolock

This fixed length seal has a rigid octagonal shaped design which gives a superior grip during the locking action and the locking jaw cannot be pierced or sprung. The double action mechanism ensures positive tamper proof locking.

Code Length

OL 216 216mm

Danger Boards

Engraved danger Boards are supplied with space for additional information - Name, Department, Number etc

Secure locks and chain can be supplied and engraved if required.

Safety / Security Mirrors

Tough, impact resistant mirrors

For use in Car Parks, on roads, warehouses and shops.
